

Huddle Room Reference Design

This design highlights just one of a few ways you can configure Stem into your huddle rooms. Below you can see Stem Table paired with Stem Control. Each device is connected directly to your network via a single Ethernet cable. Stem's ecosystem approach gives you the freedom to mix and match devices to create your own customized setup. If a Stem Wall or Stem Ceiling is more your style, go for it. This is your room. Design it to fit your needs.

Mix and match all Stem devices for a customized audio solution.

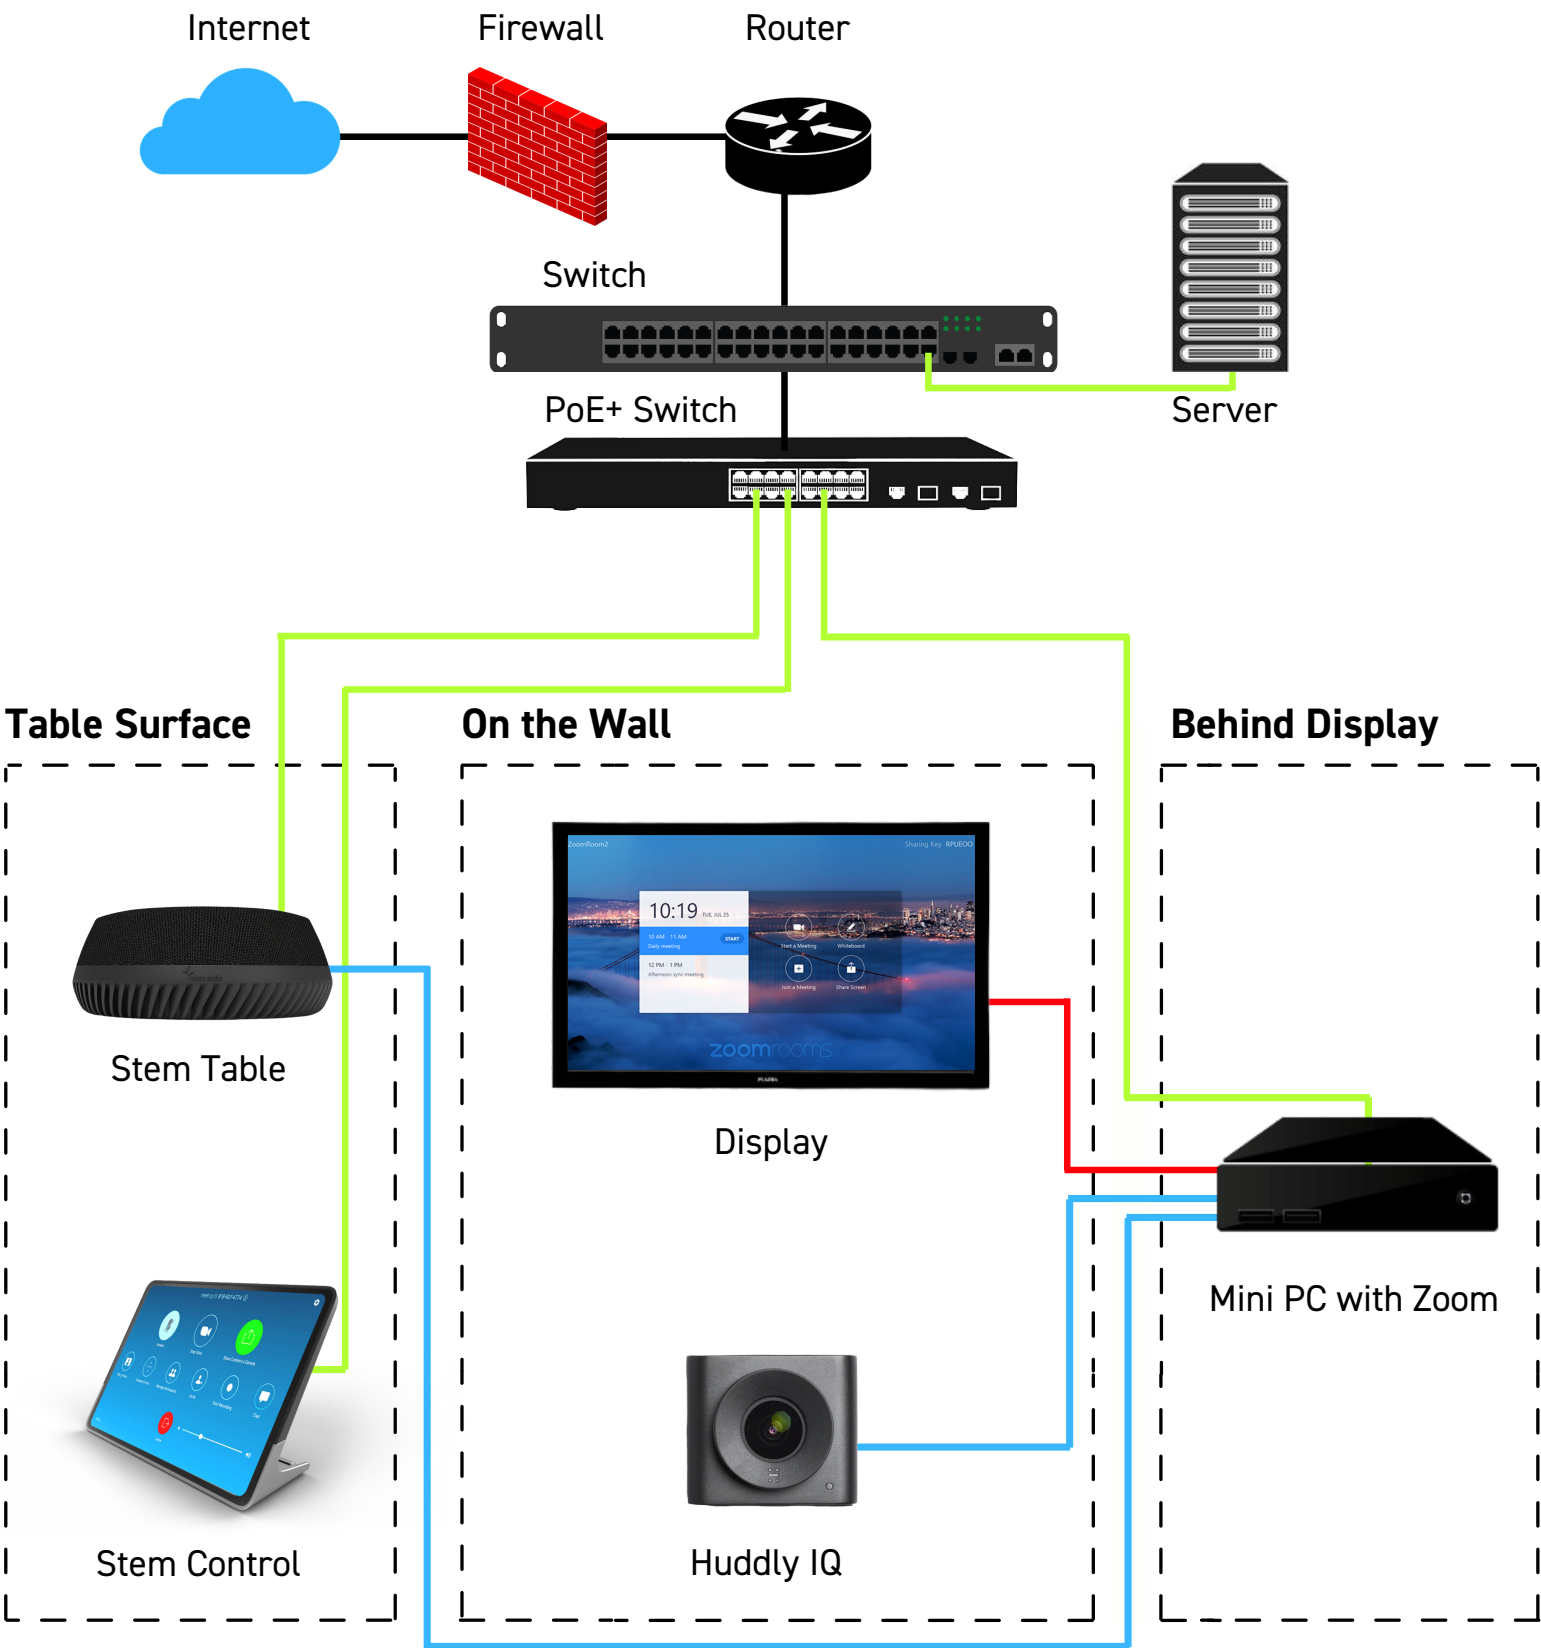

Set up, control, and manage your rooms and devices on your network.

Stem solutions are compatible with your favorite conferencing platforms.

How It All Connects

Connection Key

- HDMI Cable
- USB Cable
- Ethernet Cable
